

Dear Mr. Donahoe,

We were thrilled to get your letter. Our main purpose in getting the flagellum was because our (at the time) 9 year old son was doing a social studies fair. The title of his project was Death By Crucifixion by the Romans. We are are blessed by growing in the true understanding of how much our Savior sacrificed of himself during His Crucifixion. The flagellum was truly a cruel instrument used for pure torture. and by seeing it first hand you get a better understanding of that.

Our son Blaine placed first in his school on the project. He then went to regionals. He is a 4th grade student and went up against 4-6 graders. In regional Blaine again took first place. He went on to State at ~~LSU~~ LSU. Again up against 4-6 grade, he placed second. We ~~our~~ (his parents) are honored to say that our 9 (now 10) year old son was able to use this project, the flagellum, drawing a lot of attention, to witness to young and old alike.

Thank you for the information that you sent us along with the flagellum and for the research that is on your website. It helped us to better understand and was informative to his project.

Thank you for following the Lords will and putting forth all of your efforts to make people aware of our Saviors sacrifice and love.

Enclosed is a photo of the Social Studies project with Blaine. He truly demonstrated the project great. I watched the judges during regionals and they were fascinated.

Bless you,
Denna Armstrong
